

**FOR IMMEDIATE RELEASE**

## T-RackS® VS from IK Multimedia Now Available!

*Analog mastering plug-in suite for the Roland® VS  
hard-disk recording systems.*

October 2004, Modena, Italy – AES 117<sup>th</sup> Convention. IK Multimedia is proud to announce that T-RackS® VS, the unique analog-modeling mastering plug-in for Roland® VS hard-disk recording systems, will be available in the Roland® reseller network at the end of November 2004.

T-RackS® VS run on the new VS8F-3 Roland® expansion board, which expands the possibilities of Roland® VS Hard-Disk recording systems by allowing users to load 3<sup>rd</sup> party plug-ins (both v1.x and v2.x models).

T-RackS® VS is a suite of 2 plug-ins: DYNAMIC and EQUALIZER both physically modeled after rare vintage hardware devices and offering that typical analog sound that has made T-RackS® a standard in mastering software.

The T-RackS® VS DYNAMIC plug-in offers a mastering tube compressor, a multi-band limiter, and a soft-clipping output stage.

The T-RackS® VS EQUALIZER offers a 6-band stereo analog equalizer with the ability to process the two stereo channels independently. T-RackS® VS DYNAMIC and EQUALIZER are able to work with frequencies of 44Khz-48Khz and can be used as a mastering suite or as independent plug-ins for track compression and EQing.

The DYNAMIC plug-in will offer the following controls in the Compressor: Comp Drive, Sidechain Filter, Attack, Release, Stereo Image, Comp Out and VU-Meter. The Limiter sports: Limit Drive, Threshold, Level, Crossover low, Crossover high, Release, Overload and VU-Meter. The Soft-clipping stage offers a Clipping and an Out control.

The EQUALIZER plug-in will offer the following controls: High Pass Filter, Low shelving filter, Low-mid peaking filter, High-mid peaking, High shelving filter, Low Pass Filter, Bands Gain, enable / disable bands and scope-like display.

## Price and availability

The T-RackS® VS mastering plug-in suite has a MSRP of \$/Euro 299 and will be available in the Roland® reseller network at the end of November 2004.
