IK Multimedia

Mobile Audio/Video Accessories

When it comes to capturing great sounding audio for video on the go, IK Multimedia leads the way with the widest range of microphones and interfaces for iOS and Android devices, plus a complete line of highly targeted device holders, stands and a portable monitoring solution.

Since 1996, IK Multimedia has specialized in software and computer accessories for professional musicians and recording studios, and in 2010 pioneered the mobile audio/video content creation market with compelling apps and accessories. Today, the majority IK Multimedia products are designed and manufactured in their own factory based in Modena, Italy.

IK Multimedia has the most complete offering of analog and digital microphones and interfaces that connect directly to smartphones and tablets for videographers, journalists, reviewers, broadcasters, video/camera amateurs and prosumers who want to make great content everywhere they go. A companion range of device holders and stands plus a unique monitoring solution offers a complete solution that allows everyone to make great video soundtracks on the go.
